

ITBC3201

Following Paper ID and Roll No. to be filled in your Answer Book.

Roll
No.

(Even Semester)

Time : Three Hours]

[Maximum Marks :60]

Note :- Attempt all questions.

SECTION-A

1. Attempt all parts of the following : $1 \times 8 = 8$
- (a) Why python is an interpreted language?
 - (b) What is the purpose of a scatter plot?
 - (c) What is a boxplot?
 - (d) Define axex() function.
 - (e) What do you understand by data visualization?
 - (f) Explain the term gradient descent.

[P. T. O.]

- (g) What is difference between string and variable?
- (h) How can we visualize more than three dimensions of data in a single chart?

SECTION – B

2. Attempt any two parts of the following . $6 \times 2 = 12$

- (a) What are vectors? Define various operations of vectors with suitable example.
- (b) Write a python program to do arithmetical operations addition, multiplication and division.
- (c) Define following terms :
 - (i) 3D plot
 - (ii) Histogram
 - (iii) Bubble plot
 - (iv) ax.plot
 - (v) Function
- (d) Discuss built-in data types available in python with suitable example.

SECTION - C

3. Attempt any two parts from each question. Each part carry equal marks. $8 \times 5 = 40$

- (a) Write a python program to generate a random number.
- (b) What do you understand by data analysis? Explain 1-D data and 2-D data exploring with suitable example.
- (c) Define matplotlib lib. Explain the architecture of matplotlib lib.

4. (a) Explain following terms :

- (i) Python
 - (ii) ggplot
 - (iii) Sine and cosine functions
- (b) Write a python program to find the area of a rectangle.
- (c) What do you understand by advanced data visualization? And how it differs from traditional data visualization?

[P. T. O.]

5. (a) Write a python program to swap two variables.
- (b) Define terms maps with markers and choropleth maps with suitable example.
- (c) What do you understand by hypothesis and implementation of hypothesis in python with suitable example?
6. (a) Write a python program to check that given number is armstrong number or not.
- (b) Define following terms :
- (i) Dirt plot
 - (ii) Strip plot
 - (iii) Swarm plot
 - (iv) Pair plot
- (c) Explain pie chart and area plots. How pie chart is differ from area chart?
